

The New Zealand Neuromuscular Disease TREAT-NMD Registry

CHILD INFORMATION SHEET [CHILD_INFO]

Would YOU like to
take part?

If you have a problem with your nerves or muscles we would like to collect information about YOU. This will help us to know if there is a new treatment or information that might help you in the future.

What would I have to do?

Mum or Dad will help you complete a form with lots of questions about you. It asks things like how old you are and what sort of medical problems you might be having. It also asks for the results of medical tests that your doctor has done.

We will collect information about lots of children and grown ups in New Zealand who have the same sorts of problems. Some of this information will be available to people overseas who are investigating possible treatments.

The information we find out about you is kept in a very safe place where no one else can see it. None of the doctors investigating possible treatments will be able to know your name.

Do I have to take part?

You do not have to take part if you don't want to.

What if I want to know more?

If you aren't sure or want to know more talk to Mum or Dad about it as they have some papers with more information.

Or you can ask us more questions.
